

KÄRCHER

makes a difference

THE ULTIMATE IN CLEANING DIVERSITY.

Configurable walk-behind scrubber.

Efficient and quiet. Everything you need.

The B 60 W Bp is the walk-behind scrubber built for efficiency from the ground up. Accomplish more with the same size staff with the impressive productivity of this machine. Choose between cylindrical, disc or orbital mechanics and various widths to suit your needs with our interchangeable scrub decks. The KIK system Choose setting for your operators with our innovative KIK key system.

1 Safety is a key function

- The KIK (Kärcher Intelligent Key) system offers much greater protection against operator errors
- Supervisors can preset the B 60 operation settings for specific cleaning jobs and areas, the operator only needs to insert the key
- The machine can only be started with the associated coded key, so it is protected against unauthorized use

2 Slim and fit

- With its slimline design, the B 60 easily negotiates awkward objects and narrow passageways
- The asymmetric tank shape ensures a clear view of the brush head.

3 Correctly charged

- The charging curve of the standard built-in charger protecting the batteries and ensuring long run times and long battery life

4 Quiet, strong and efficient

- In ecoefficiency mode, the brush speed and suction force is reduced to a level adequate for relatively light soiling
- In this mode the noise level is also reduced up to 4 dB(A), making the B 60 the right choice for cleaning in noise-sensitive areas
